Game Attendance

Know who's planning to attend and streamline your pre-game set-up!

- **Players** can set their Attendance for upcoming games with 1-click on their Home screen.
- **Team Reps/Managers** can view and update their Team member's Attendance, jersey numbers and positions for each individual game.
 - All Team members also have Team Chat (instant messaging) available to coordinate in real-time.
- **Scorekeepers** can see player Attendance responses as a reference for their player check-in process.

THE FUTURE OF SPORT

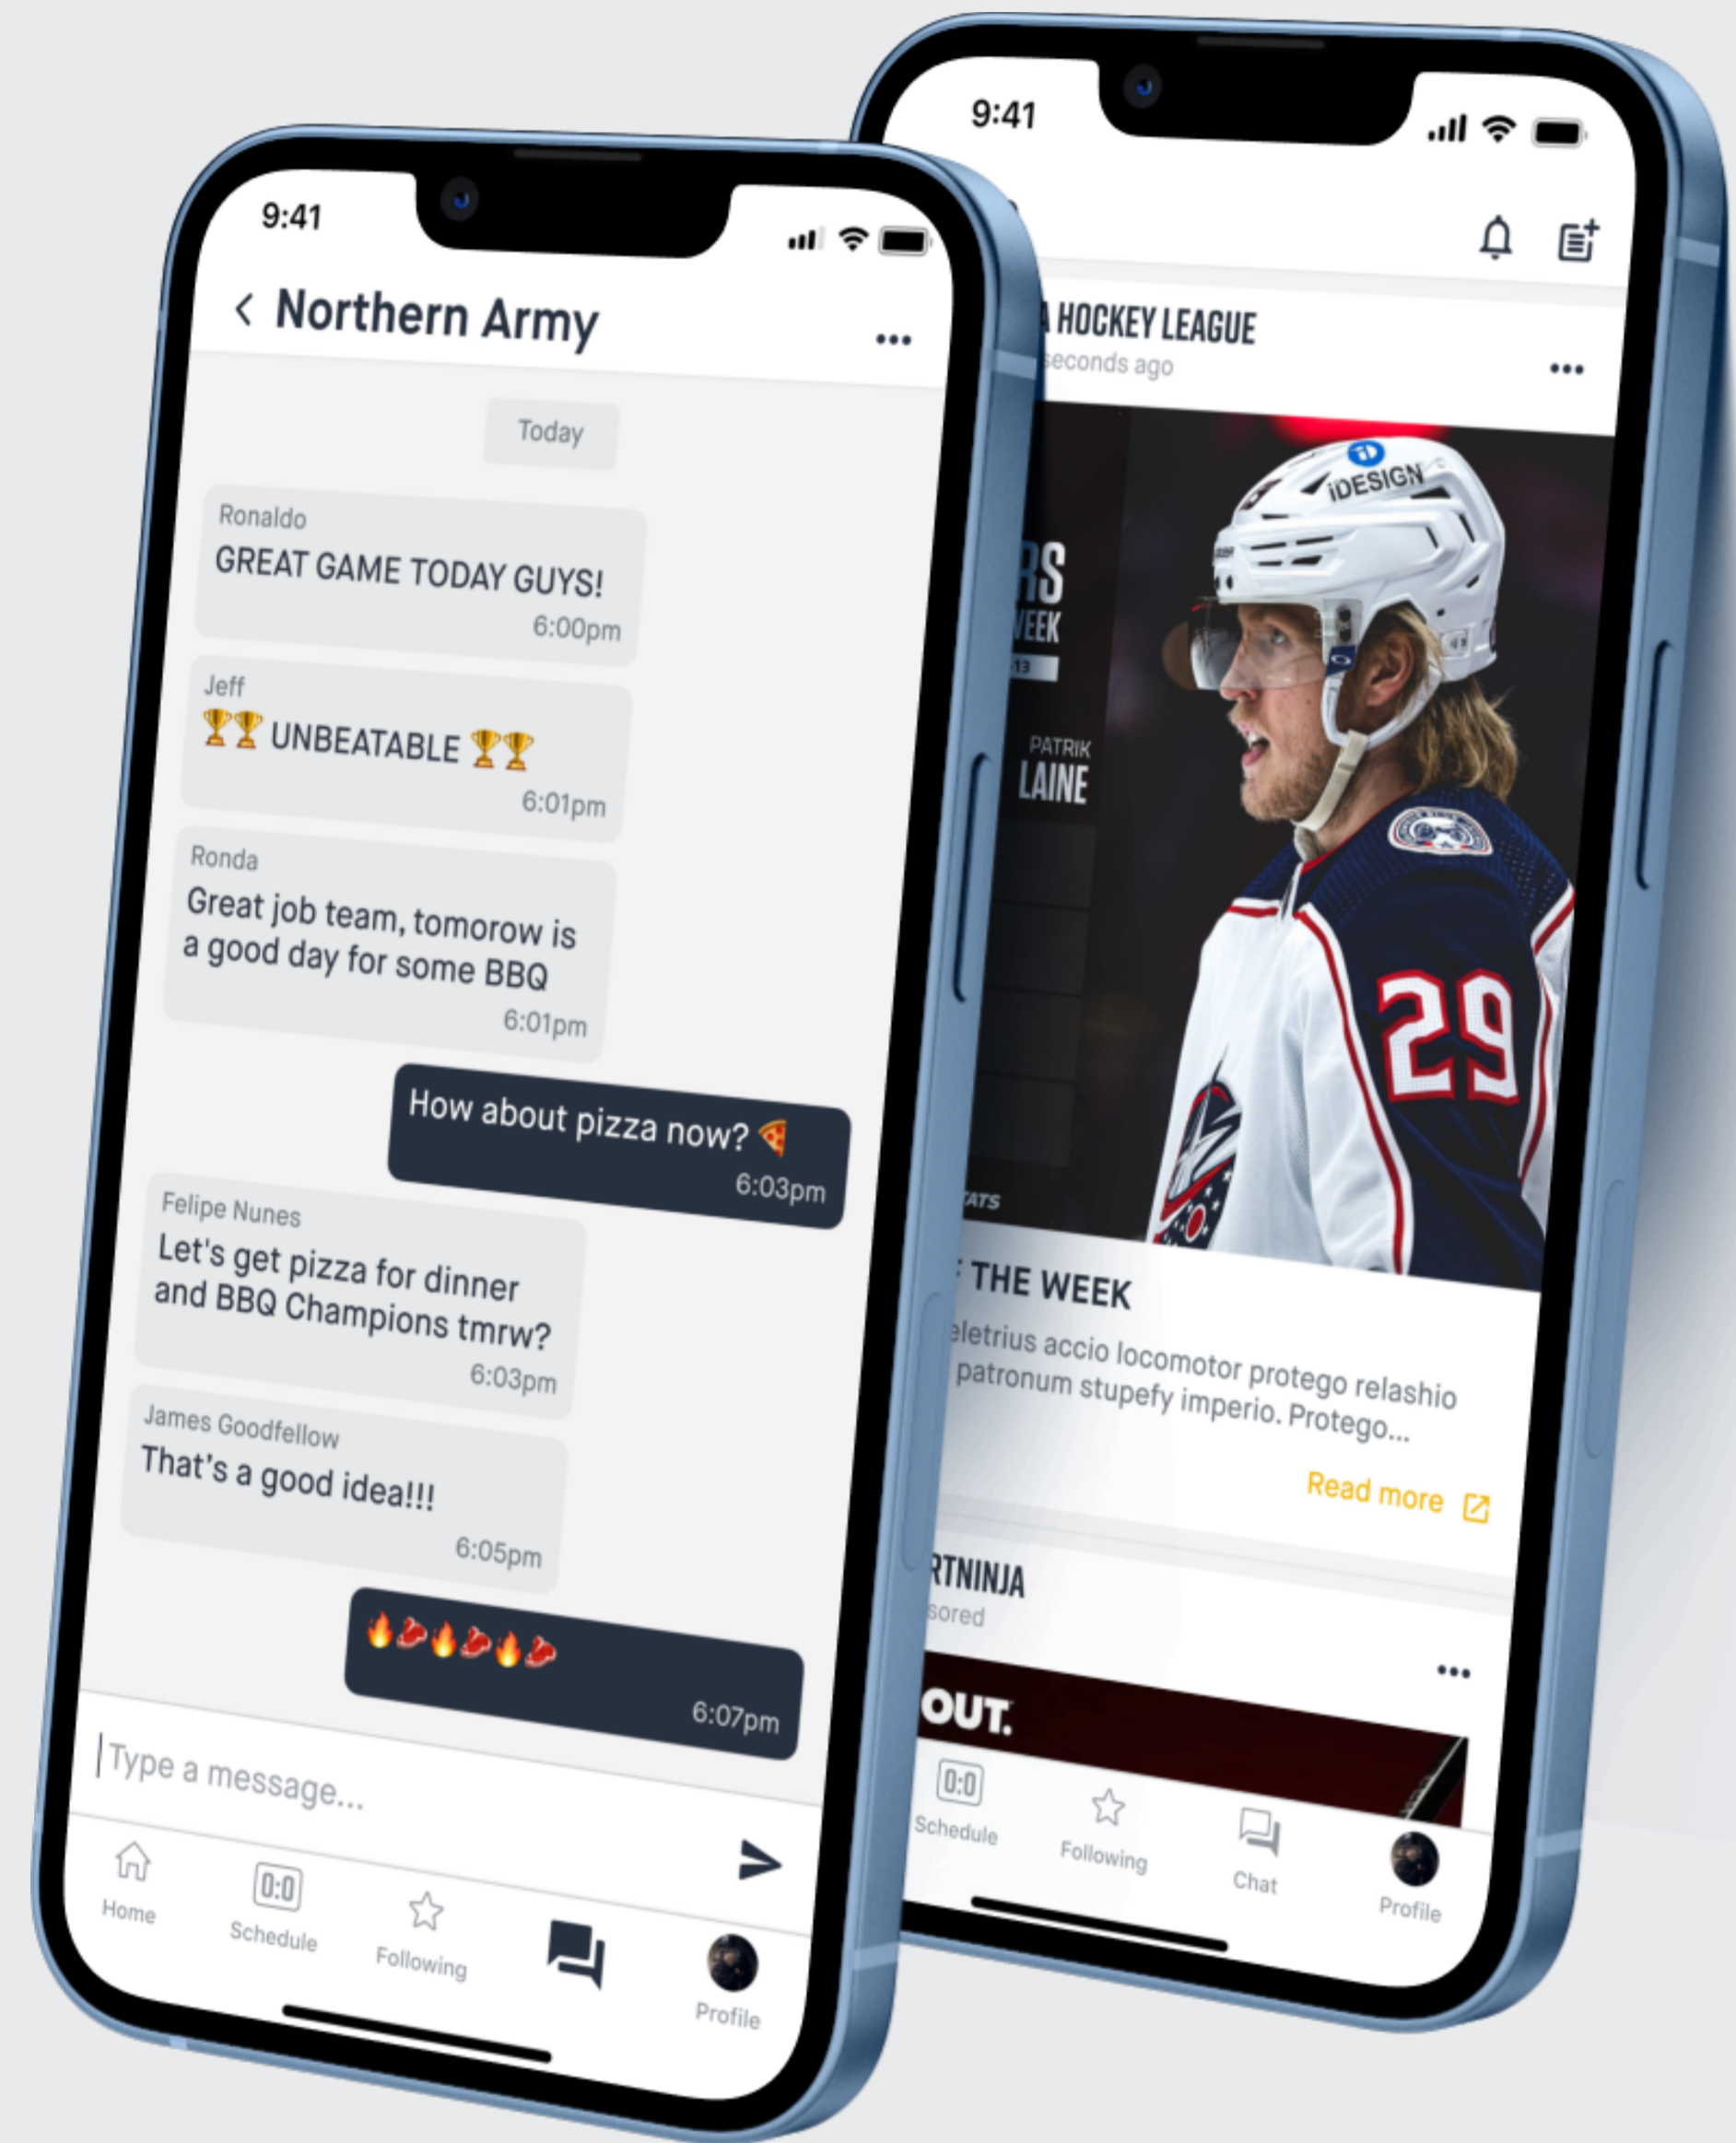

Team Chat & Announcements

Team Chat: All players and team officials have Team Chat for each of their teams by default (Note: Players marked as "Affiliate" do not have Team Chat)

- Once you accept an invite to Join your team, you will automatically have Team Chat available on mobile and web.
- Team Chat becomes live 30 days prior to the start of a Competition up until 10 days after the Competition's end date.

Announcements: This feature is for communicating to Team members as well as any team Followers.

- Announcements show up on the home screen for all team members and followers when posted. They can include images and url links as needed.

Notifications, Reminders and Game Updates

When you download the SportNinja app you will be asked if you would like to Allow Notifications. Allowing notifications is recommended for the best experience.

SportNinja delivers push notifications to your devices for:

- Upcoming Game Reminders
- Reminder to Set your Game Attendance
- Game Scores (immediately post game)
- Team Invites and more!

Calendar Sync

From your Team's "Games" tab on the mobile app you can subscribe/export and sync your game schedule into your personal calendar.

The Calendar sync is updated every 10 minutes, so your personal calendar is never out of sync with any game updates.

Video and Highlights

Streaming: Games can be broadcast through the mobile app (or brought in via on-demand 3rd party service) and streamed through the app or on the web platform.

Highlights: Any games streamed via the app AND scored in real-time, will have game highlights auto-generated and immediately associated with each game and applicable player profile.
